

Retina Foundation of the Southwest
Anderson Vision Research Center
9900 North Central Expressway
Dallas, Texas 75231

Telephone: (214) 363-3911 ext: 105
Email: dbirch@retinafoundation.org
Citizenship: U.S. Citizen
Date of Birth: 01/19/1949

EDUCATION

B.A. University of California, Riverside, California 1970
Ph.D. University of California, Santa Barbara, California 1978

POSITIONS

1978 - 1979 Post-doctoral fellow, University of Florida Medical School, Gainesville, Florida
1979 - 1982 Post-doctoral fellow, Massachusetts Eye and Ear Infirmary, Harvard Medical School, Boston, Massachusetts
1982 - 2009 Research Director, Retina Foundation of the Southwest, Anderson Vision Res Center, Dallas, Texas
1982 – present Director, Rose-Silverthorne Laboratory for Retinal Degenerations, Anderson Vision Res Center, Retina Foundation of the Southwest, Dallas, Texas
1982 - 1988 Adjunct Assistant Professor of Ophthalmol, University of Texas Southwestern Medical School, Dallas, Texas
1988 - 1994 Adjunct Associate Professor of Ophthalmol, University of Texas Southwestern Medical School, Dallas, Texas
1994 - Present Adjunct Professor of Ophthalmol, University of Texas Southwestern Medical School, Dallas, Texas
1999 – Present Center Coordinator, Foundation Fighting Blindness Southwest Regional Center
2006 – Present Director of Electrophysiology, University of Texas Southwestern Medical School, Dallas, Texas
2009 – Present Chief Scientific and Executive Officer, Retina Foundation of the Southwest. Dallas, Texas

PROFESSIONAL ORGANIZATIONS

Association for Research in Vision and Ophthalmology
American Association for the Advancement of Science
Optical Society of America
American Academy of Ophthalmology
International Society for Clinical Electrophysiology of Vision
Schepens International Society
Southern Retina Study Group
International Society for Eye Research

PROFESSIONAL EXPERIENCE

Grants:

1978 - 1980 Post-doctoral fellowship, University of Florida Medical School
1980 - 1982 Post-doctoral fellowship, Massachusetts Eye and Ear Infirmary, Harvard Medical School
1984 - 2008 Principal Investigator, NEI 2R01 EY05235
"Retinal Pathophysiology in Infants and Adults"
1987 - 1992 Principal Investigator, NEI 1R01 EY07188
"Electroretinographic Studies in Age-related Macular Degeneration"
1987 - 1990 Co-Investigator, Cerebral Palsy Foundation
"Effect of Dietary Omega-3 Fatty Acids on Brain and Visual Development in Low Birth Weight Infants"
1996 – 2001 Co-Investigator, Food and Drug Administration FD-R-001232

- 1987 - Present “DHA Supplementation and X-linked Retinitis Pigmentosa”
Principal Investigator, The Foundation Fighting Blindness, Inc.
"Rod Loss in Retinitis Pigmentosa"
- 1987 - 2002 Co-Investigator, 1R01 HD22380
"Are Omega-3 Fatty Acids Essential for Normal Development"
- 1991 - Present Principal Investigator, 1R01 EY09076
"A measure of Human Receptor and Post-Receptor Activity"
- 1997 – 2001 Principal Investigator, TAP Holdings Inc.
“The Use of Lansoprazole in Patients with Zollinger-Ellison Syndrome and Patients with Hypersecretion of Gastric Acid”
- 1997 – 1998 Consultant, Abbott Laboratories
“Eye Findings in Patients Taking Ritonavir”
- 1997 – 1998 Principal Investigator, Pfizer Pharmaceuticals
“A Double-Blind Randomized, Placebo-Controlled, Crossover Study to Investigate the Effects of a Single Oral Dose of Sildenafil (Placebo and 100 mg) on Visual Function in Subjects with Early Age-Related Macular Degeneration”
- 2003 – Present Food and Drug Administration, Co-Investigator
“High Dose DHA and X-Linked Retinitis Pigmentosa: Phase II”
- 2006 – Present Neurotech USA, Lead Investigator
A Phase II/III Study of Implants of Encapsulated Human NTC-201 Cells Releasing Ciliary Neurotrophic Factor (CNTF) for Participants with Retinitis Pigmentosa using Visual Field Sensitivity as the Primary Outcome Measure”
- 2007 – Present Principal Investigator, Second Sight Medical Products, Inc.
“Argus™ II Retinal Implant System Feasibility Protocol”
- 2007 – Present Principal Investigator, Centocor Research & Development, Inc.
“Phase I Open-Label, Non-Comparative Study Evaluating the Safety of a Single, Unilateral Subretinal Administration of CNTO 2476 in Advanced Retinitis Pigmentosa”
- 2007 – 2008 Acucela Inc., Principal Investigator
“An Outpatient Study of the Retinal Safety and Systemic Tolerability of Orally Administered ACU-3223 After Single-Dosing and Repeated-Dosing in Healthy Adults of 55 to 75 Years of Age”
- 2008 – Present Allergan, Inc., Principal Investigator
“An Exploratory, Multicenter, Patient-masked, Dose-escalation, Paired-eye Comparison, Sham-controlled, 6-Month (Plus 6-Month Extension) Study to Evaluate the Safety and Effects on Visual Function of 100 µg, 200 µg, and µg Brimonidine Tartrate Posterior Segment Drug Delivery System (Brimonidine Tartrate PS DDS) Applicator System in Patients with Retinitis Pigmentosa”

Journal Referee:

Survey of Ophthalmol, Invest Ophthalmol Vis Sci, Journal of Comparative Psychology, American Journal of Ophthalmol, Doc Ophthalmol, Exp Eye Res, Ophthalmol, Vision Res, American Journal of Ophthalmol, Psychiatry Research, Vis Neurosci, Ophthalmic and Physiological Optics, Ophthalmic Genetics, Early Human Development, Neuron, Gene Therapy, Cell, Proc Nat Acad Sci.

Editorial Board:

Documenta Ophthalmologica, Experimental Eye Research

Service and Awards:

Visual Sciences Study Section, NIH
Small Business Innovation Research Program, 1988-1990
Special Reviewer, VisA2 Study Section, 1990-1991
Special Reviewer, VisC Study Section, 1991

Special Reviewer, VisB Study Section, 1992
Special Reviewer, VisC Study Section, 1993
Regular Member, VisC Study Section, 1994-1997
Special Emphasis Panels, 2000-present
Technical Program Committee, Optical Society of America, 1989-1990
Instructor, American Academy of Ophthalmology
Charles A. and Anne Morrow Lindbergh Certificate of Merit, 1994
2001 Achievement Award, American Academy of Ophthalmology
Scientific Advisor, D/FW Chapter, Foundation Fighting Blindness
Scientific Advisory Board, Dallas Services for Visually Impaired Children
Scientific Advisory Board, Foundation Fighting Blindness
Scientific Advisory Board, Academy of Biomedical Professions
Scientific Review Committee, Fight for Sight
2009 Fellow, Association for Research in Vision and Ophthalmology

Pre-doctoral fellows and interns:

Adriana Berezovsky, Mark Pennesi, Angela Peters, Janie Pantaglian, Megan Trese, Rachel Drennan, Hemaxi Patel, Erin Goin

Post-doctoral fellows:

Steven Nusinowitz, Ph.D., Radouil Tzekov, M.D., Ph.D., Jesus Gonzales, M.D., Alejandra Alcala, M.D., Liane Baidelman, M.D., Petra Kozma, M.D., Ph.D., Eugene Filley, Ph.D., Nalini Rangaswamy, Yuquan (Eddie) Wen

PUBLICATIONS

Books:
